LAST UPDATED: JULY 2017

The most up-to-date Argus US West Coast Products Methodology is available on www.argusmedia.com

Introduction

Argus US West Coast Products contains spot and calculated prices for crude, refined fuels, biofuels, marine fuels, freight rates, and regulatory instruments. Commodity prices include physical pipeline and waterborne availabilities, as well as the values of certificates, allowances, and credits created by regulatory policy. All of the underlying commodity and freight prices are published in other Argus reports. Detailed information about the methodologies employed in assessing prices in these markets can be found in the relevant Argus methodologies listed below.

Biofuels

Los Angeles ethanol
Ethanol (renewable fuel D6) RINs
Biodiesel (biomass-based diesel D4) RINs
Cellulosic (cellulosic biofuel D3) RINs
